

PRESS REGISTRATION APPLICATION
(For Working Members of the Editorial Press Only)
April 12-14, 2010
Washington DC Convention Center

To obtain a press badge, working members of the editorial media may register in advance by filling out the press registration form below and submitting with the proper credentials. Press badges will not be mailed in advance of the event, and will be available for pick up onsite in the Press Office. When registering, you must present the appropriate Accreditation Credentials, including a valid 2010 press card, an original letter of assignment from the publications editor, one sample of a bylined article published in the last year or a business card reflecting an editorial title.

- **Freelancers:** In lieu of a business card, you may submit a byline or editorial credit in a masthead published within the last six months. All registration will be verified through a national media database.
- **Press IDs from membership organizations are not sufficient for verification:** A history of being registered at previous events or other recognized trade shows does not guarantee approval or waive any aforementioned requirements. Misrepresentation of position and/or publication/news organization will bar you and your organization from all future BNP Media run events.

If approved, you will receive confirmation from our Public Relations department. On-site as a working member of the editorial press, you have full access to the exhibit hall, conference sessions and special events; in addition, you will be notified of press conferences. You will also be able to enjoy a fully operational on-site press room complete with computers, printers, Internet access, phones, and refreshments.
